

ARTISAN FURNITURE
MATERIALS GUIDE 2023

ducksnest.

TIMBER SPECIES

Artisan pieces are available in a choice of seven different sustainably and regionally sourced timber species from Bosnia – European Oak, European Walnut, American Walnut, Elm, Maple, Cherry, and Ash. The furniture is finished with environmentally-friendly finishes including natural oils and soap which emphasise the luxurious and organic beauty of the wood grain – creating colour diversity.

The furniture, in essence, can breathe.

LEATHERS

We offer a wide range of upholstery options and colours.

We have three levels of leather options – each in a wide selection of colours.

The Gruppo Zenith collection by Mastrotto is corrected and embossed, with a thickness of 0.8 – 1.0 mm. Finished using a water-based system, the leather has a pigmented and protective topcoat with a soft feel and a silky matte finish, perfect for upholstery.

Stolz Select: Semi-Aniline Pigmented Nappa leather with a smooth grain structure originating from Scandinavian bull hides. The thickness is 1.2 / 1.4 mm.

Stolz Vegetal: Originating from Scandinavian bull hides with an Aniline surface and a smooth structure.

KVADRAT AND DEDAR MILANO FABRICS

Kvadrat are leaders in the industry of textile design, internationally renowned and progressive in design, committed to continuously pushing the boundaries of aesthetic, creative, and technological advancement. Their upholstery fabric is of the highest quality. Select from Steelcut Trio 3, Remix 3 and Revive 1 Collections.

Steelcut Trio 3: Designed by Giulio Ridolfo and Frans Dijkmeijer with a composition of 90% wool, 10% nylon. <https://www.kvadrat.dk/en/products/upholstery/2965-steelcut-trio-3>

Remix 3: Designed by Georgina Wright with a composition of 100% recycled polyester nylon. <https://www.kvadrat.dk/en/products/upholstery/2968-remix-3>

Revive 1: Designed by Giulio Ridolfo with a composition of 90% wool, 10% nylon. <https://www.kvadrat.dk/en/products/upholstery/7911-revive-1>

Karakorum: A bouclé that intertwines wool and viscose in an uneven texture of loops and curls, inspired by precious astrakhan furs. With its soft and bulky hand-feel, this fabric is ideal for upholstery destined for intensive use 42%WO 33%CV 24%CO 1%PA <https://dedar.com/en/product/karakorum/karakorum-001>

YOUR WOOD CARE

SHARING OUR LOVE FOR WOOD.

For everyday cleaning, use a soft damp cloth, free of any cleaning agents or chemicals. Do not leave liquid spillage to sit on the surface as it may cause staining.

We recommend oiling your furniture once a year with the Woca Brand Oil Finish www.wocadenmark.com

Lightly rub the surface of the furniture with the sanding sponge provided in the Artisan care pack. Wipe the entire surface with a clean damp cloth and leave to dry.

Apply the oil from the care pack using a clean white cloth or sponge. Do not pour the oil directly onto the wood. Apply the oil in the direction of the grain in a thin, even layer. It is important to treat the entire surface. Allow the oil to dry for approximately two hours then remove any excess oil with a clean dry cloth.

Dints or scratches can be removed by gently sanding. It is important to sand in the direction of the grain using the sanding sponge at least grade 180 or finer or fine sandpaper grade 240. Wipe the table with a clean, damp cloth to remove residual dust. Oil the wood as described above.

Warranty: Products have a two year warranty period. Timber is a natural material that will respond to its environmental conditions. The tone of the timber will alter over time with exposure to UV light.
